EDITORIAL:

Still going the distance

Classes have started in some schools and universities in the country, and more, including public basic education institutions, are expected to begin the school year in the next few weeks. Given the situation we find ourselves in right now, holding face-to-face classes remains a distant dream.

When the pandemic began a year and a half ago, nobody had any idea that it would last this long. At that time, the abrupt shift to online education was seen as a stop-gap solution, perhaps to run for a few weeks, until the COVID threat disappeared.

But it did not disappear. It only got more menacing, more paralyzing—and closer to home.

Over the past year, both students and teachers learned that there was nothing easy about learning and teaching from home. Only a small percentage of families had the optimal tools like computers, tablets, mobile, and a reliable internet connection, or even space in the house conducive to learning. Basic education teachers went out of their way to bring printed modules to the homes of their students.

This radically different mode of education did not guarantee effective learning, especially since the remote set-up is happening as students, teachers, or their family members are getting sick of COVID-19 or dealing with the economic consequences of the protracted lockdown.

And now we are starting another school year under the same arrangements.

It would be ideal if we could apply the lessons on the methods that worked—and didn't—during the past year. What is the best way to assess how engaged the students are? How can we be certain students fail to show up online or submit requirements because they are truly having difficulties, not manufacturing excuses? How can we ensure it's the children who actually do the exercises—not their parents or other family members?

The truth is, we are as stumped as we were the first time, especially since the virus' new variant is threatening even children who are supposed to have stronger immune systems.

As before, we will make do with what we know and what we have, hoping that our individual and collective learnings from this whole experience would tide us through.

National . . .

In step with President Duterte's goal of financial inclusion for all Filipinos, the number of unbanked national ID registrants onboarded by the Land Bank of the Philippines (LANDBANK) to the formal banking system has grown to 4.47 million as of end-June.

A report to Finance Secretary and LANDBANK Chairman Carlos Dominguez III shows that the state lending institution has so far onboarded 4,468,249 new accounts or 47 percent of the 9,484,696 individuals who had already registered in the Philippine Identification System (PhilSys) from 884 sites in 32 provinces.

As of June 30, 2021, 1,225,675 or 27 percent of the onboarded applicants have already received their LANDBANK Agent Banking Cards (ABCs).

LANDBANK records show that Philsys registrants who were issued cards are already using these for various transactions.

As of June 30, 2021, a total of 4,338 Philsys registrants made 8,099 transactions over-

the-counter (thru LANDBANK branches), or through mobile banking apps, point of sale and online. Majority of the transactions were conducted in the Visayas as well as in Central Luzon.

These cards are provided free of charge and with no initial deposit requirement to PhilSys applicants in areas where the LANDBANK has co-located with the Philippine Statistics Authority (PSA) in PhilSys registration sites across the country.

LANDBANK said facilitating the opening of bank accounts for PhilSys registrants will help ensure the speedy and efficient delivery of future government assistance programs to unbanked beneficiaries.

LANDBANK's ABCs can be used by Philsys ID holders to withdraw cash at ATMs and point-of-sale (POS) cash-out terminals, shop online and perform other cashless transactions, as well as receive any government subsidy digitally.

The card is also contact-

FROM PAGE 1

less-enabled, which means it can be used for "tap" payments, such as for the Automated Fare Collection System (AFCS) that the government plans to roll out for public utility vehicles (PUVs).

As for the bank's other digital transformation initiatives, LANDBANK reported that since November 2018 up to end-June 2021, a total of 1,671,470 accounts were opened through the bank's Digital Onboarding System (DOBS), which includes accounts opened for clients of the Overseas Filipino Bank (OFBank), a LANDBANK subsidiary that is the first digital-only bank in the country.

For the month of June 2021, accounts opened reached 68,863, higher than the 67,889 accounts opened in the previous month.

LANDBANK also said there was a sustained increase in the number of transactions using the LANDBANK Mobile Banking App from 31.97 million transactions last June 2020 to 47.03 million in June 2021. (PR)

Halos tatlong milyon o kabuuang 2,815,000 semilya ng Bangus at Tilapia ang nakatakdang ipamahagi ng Bureau of Fisheries and Aquatic Resources Region (BFAR) 4A sa mga mangingisda sa Rehiyon simula Agosto 19 hanggang Setyembre 1, 2021.

Unang namahagi ang BFAR 4A ng 120,000 Bangus fingerlings sa mga mangingisda ng lungsod ng Biñan at Calamba nitong nakaraang Huwebes, Agosto 19.

Nakatakda naman mamahagi sa mga susunod na araw ang BFAR 4A sa pamamagitan ng Fisheries Production and Support Services Division (FPSSD) at mga Provincial Fisheries Offices (PFOs) sa mga lalawigan ng: Cavite, 100,000 Bangus at 500,000 Tilapia; Laguna, 500,000 Tilapia; Batangas, 100,000 Bangus; Rizal, 200,000 Bangus at 500,000 Tilapia; at Quezon, 600,000 Tilapia.

Ayon sa BFAR 4A, ang pamamahagi ng semilya ay bilang pagtugon sa Republic Act (RA) 11321 o ang 'Farmers and Fisherfolk Enterprise Development Program' (SAGIP SAKA ACT) na naglalayong sagipin ang industriya ng pagsasaka at pangangisda sa pamamagitan ng paghikayat sa kanila na magnegosyo. Hangarin din ng proyekto na makapagbigay kontribusyon sa produksyon ng isda sa CALABARZON.

Ang pamamahagi ay isinagawa ng Fisheries Production, Support and Services Division (FPSSD) ng BFAR 4A sa pangunguna ni OIC-Chief Emiliana C. Casbadillo na kasalukuyan ding OIC ng PFO-Laguna, sa pakikipagtulungan ng lokal na pamahalaan at samahan ng mga mangingisda sa mga nabanggit na lungsod. (CPG, PIA CALABARZON at ulat mula sa BFAR 4A FB Page)

'Not at this time', on calls allowing only fully vaccinated in malls and restos

Calls limiting to only fully vaccinated individuals access to malls and restaurants in Metro Manila should be put off until there's enough supply of vaccines, Senator Win Gatchalian said.

"Sa ngayon mahirap gawin 'yan dahil hindi sapat ang supply ng vaccines natin. Marami na ang gustong magpabakuna pero ang problema naman ay kulang ang supply," he emphasized.

"Until such time na marami na ang bakuna at mayroon pa ring mga taong ayaw magpabakuna, siguro maaari na nating pag-isipan ang panukalang 'yan para maengganyo natin ang lahat na maging bakunado," added Gatchalian.

In Valenzuela City, for instance, the senator said the local government has a backlog of almost 300,000. While 52% of the target population already received the first dose, only 34% have been administered with the second dose.

"Hindi sa ayaw ng mga taong magpabakuna, walang bakuna na makuha at maraming local government units (LGUs) na humihingi pa ng bakuna. Marami akong kausap na mga LGUs sa probinsya na namomroblema sa supply ng bakuna. Kulang na kulang pa talaga," Gatchalian said

Insofar as the National Capital Region (NCR) is concerned, Metro Manila Development Authority (MMDA) chairperson Benhur Abalos said the vaccination drive against COVID-19 have inoculated 43.5% of the eligible recipients or a total of 4,262,546 residents have been fully vaccinated as of August 22, 2021.

Seventy-five percent of the whole eligible population of the NCR have already been administered their first dose of the vaccine and full vaccination of 50% of the eligible population can be achieved by the end of the month, according to Abalos.

Some business groups supported the idea of allowing only those fully vaccinated in restaurants, within mall premises, and other commercial establishments in the NCR to create safer bubbles that could control the spread of the more transmissible COVID-19 variants.

Gatchalian said he supports the idea if it's meant to encourage more people to get themselves vaccinated.

"Aminin na natin, mababa na ang vaccine hesitancy rate ngayon. So kahit na may mga naeengganyong magpabakuna na, kung wala naman silang paraan para mabakunahan, mawawalan ng saysay ang pagsisikap na ito. Hindi rin naman madadagdag ang kita ng mga malls at restaurants kung konti pa lang ang mga bakunado," he said.

Locally sourced LGU revenues rise 5% to P169-B in Q2

Local government units (LGUs) have increased their collections from locally sourced revenues (LSRs) by 5 percent to P168.96 billion in the second quarter of 2021, compared to P161.49 billion in the same period last year, but continue to rely heavily on their internal revenue allotment (IRA) share to fund their operations and programs.

In a report to Finance Secretary Carlos Dominguez III, the Bureau of Local Government Finance (BLGF) said the current operating income of provinces, cities and municipalities reached P460.86 billion in the April-June period, representing an increase of P1.74 billion or 0.4 percent from the P459.12 billion posted in the same quarter last year.

BLGF Executive Director Niño Raymond Alvina traced this slight increase in collections to the IRA, which grew P273.21 billion over the April-June period, higher by P19.58 billion or 8 percent from the P253.63 billion that LGUs received during the same period in 2020.

"On IRA dependence, provinces showed the highest dependency at 79 percent, followed by the municipalities (75 percent) and cities (38 percent) in the second quarter of 2021," Alvina said.

The contribution of the IRA to the current operating income of LGUs in the second quar-

ter rose to 59 percent, from 55 percent in 2020.

The LSRs accounted for 37 percent of the current operating income of LGUs, an improvement from its 35 percent share last year. Tax revenues, mostly from local business tax (LBT) and real property tax (RPT), contributed the biggest share of the LSRs in the second quarter at P135.07 billion, which is a 4-percent increase from the P129.65 billion collected in 2020, Alvina said.

The share of non-tax revenues, which amounted to P33.88 billion in the second quarter, increased by 6 percent from the P31.85 billion collected in 2020.

Other income sources of LGUs were transfers from the national government that include donations, grants and other shares in the tax collections, which amounted to P18.69 billion in the second quarter of 2021.

This was a sharp decline from the P43.99 billion that LGUs received during the same period last year when the one-time Bayanihan grant to LGUs was released under Republic Act (RA) No. 11469 or the Bayanihan 1 Law.

Alvina said cities collected the highest LSR at P120.31 billion, which is 72 percent of the total LSR of LGUs, followed by municipalities and provinces, with P31.16 billion (19 percent) and P15.14 billion (9 percent).

"Based on the performance targets set by this Bureau to local treasurers for FY (Fiscal Year) 2021, the LSR of provinces, cities and municipalities as of Q2 FY2021 already accounts for 74 percent of the full-year collection target of P223.89 billion," he said.

Alvina said LBT collections, which account for 47 percent of the LSR, already reached 80 percent of the full-year target, while the collection efficiency for the RPT was at 75 percent.

Collections from fees and charges, and receipts from economic enterprises respectively a respective collection efficiency of 74 percent and 47 percent, based on the 2021 targets.

As in the previous years, the National Capital Region (NCR) posted the highest LSR collections, which reached P72.34 billion or 43 percent of the total LSR of all LGUs, Alvina said. This was followed by Region IV-A or CALABARZON (Cavite-Laguna-Batangas-Rizal-Quezon) and Region III (Central Luzon), with a respective P26.14 billion (16 percent) and P15.54 billion (9 percent) in LSR collections.

"On a per LGU basis, there were 375 LGUs or 22 percent of the total number of LGUs that experienced decline in LSR as of Q2 FY2021, namely 29 provinces, 56 cities and 290 municipalities," Alvina said. (PR)

Six textile ...

The value of tax credits granted to a half-dozen textile companies from 2008 to 2014 that were invalidated by the Commission on Audit (COA) have now ballooned to P1.6 billion, according to a COA

Capital-Roll Knit Corp. (CRC), Uni-Glory's Knitting Corp. (UKC), Primeknit Manufacturing Corp. (PMC), Tai-Cheng Integrated Resource Inc. (TICIRI), Miskhu Industrial Corp. (MIC) and Universal Pacific Knitting Mills Inc. (UPKM) were among the textile firms found to have secured illegal tax credit certificates (TCCs) from the One-Stop Shop Inter-Agency Tax Credit and Duty Drawback Center (OSS) from 2008 to 2014.

As of the first quarter this year, the COA-Special Audits Office (COA-SAO) reported that it has issued Notices of Disallowance (NDs) to these six textile companies for having secured illegal TCCs amounting to P1.195 billion.

A new set of NDs involving P389.27 million was issued by the COA in the second quarter to these same textile firms, bringing the total of their disallowed TCCs to P1.58 billion, based on a June 22, 2021 letter sent by the audit body to Dominguez.

This latest set of NDs covered TCCs that were issued mostly between 2010 and 2014, according to the letter sent by COA-Director Gloria Silverio. CRC tops the list with the largest amount of illegal TCCs at P664.92 million.

The COA-SAO reported that on top of the earlier disallowed TCCs granted to CRC in the sum of P567.2 million, a new set of NDs was issued to the firm totaling another P97.72 million.

MIC, which was earlier found to have been issued illegal TCCs worth P80.11 million, was issued a new set of NDs totaling P56.87 million, which brings the total of its illegal tax credits to P136.98 million.

The illegal tax credits of UPKM, Inc. grew to

P127.81 million after the COA found a new set of spurious TCCs issued to the firm worth P46.2 million. This is on top of the firm's TCCs totaling P81.59 million that were earlier invalidated by COA.

UKC, with TCCs totaling P170.8 million that were earlier disallowed by COA, also received NDs for a separate set of TCCs amounting to P70.88 million, according to the latest audit done by the COA-SAO.

Its disallowed TCCs now amount to P241.68 million.

PMC's disallowed TCCs of P154.27 million increased to P214.31 million after the COA-SAO determined a new set of TCCs worth P60.04 million was illegally issued to the company.

The COA-SAO also found that P57.54 million in TCCs granted to TICIRI should also be disallowed, on top of the earlier NDs that the audit body issued against the firm worth P141.27 million combined.

The total value of TICIRI's disallowed TCCs is P198.81 million.

Several past officials and employees of the Department of Finance (DOF), Board of Investments (BOI), Bureau of Customs (BOC) and OSS who were responsible for processing and approving the illegal TCCs between 2008 and 2014, as well as the recipients and claimants from the six companies, were held liable by COA.

Approved applications meant tax credits on the duties and taxes that exporters supposedly paid, and they could then use the amount to pay other tax liabilities due the government. The practice of these alleged exporters who illegally obtained TCCs was to sell the certificates to other companies at a discount. The latter would then use the TCCs to pay their own tax liabilities.

The COA found that the OSS issued TCCs to either ghost exporters or real companies that were not in the export trade or did not deserve the tax credits issued to them, such as these six textile companies. (PR)

DPWH, MHI lead inauguration of CALAX Silang East Interchange

The Department of Public Works and Highways (DPWH) with MPCALA Holdings Inc. (MHI) inaugurated the 4th section of the 45-kilometer Cavite-Laguna Expressway (CALAX) early today, with the opening of the CALAX Silang East Interchange section.

DPWH Secretary Mark Villar led the inauguration with several top government executives including, Senator Christopher 'Bong' Go, Department of Transportation (DOTr) Secretary Arthur P. Tugade, Executive Secretary Salvador Medialdea, Cavite Governor Jonvic Remulla, and Mayor Corazon Poblete of Silang, Cavite.

Officials of the MHI who were in attendance were Metro Pacific Investment Corporation President Jose Ma. Lim, Metro Pacific Tollways President and CEO Rodrigo E. Franco, MHI President and CEO Robert V. Bontia, and selected members of the

project team.

"We are grateful for the trust and continued partnership with the government of the Philippines in providing the much-needed mobility infrastructure in the form of CALAX to help boost tourism and economic activity in the CALABARZON Region," said MPT South President and General Manager Roberto V. Bontia during his speech.

The 7.2 kilometer Subsection 5 connects Sta. Rosa, Laguna to Tagaytay Interchange going to Silang East Interchange.

As a result, the Laguna Segment with 17 kilometers long is estimated to service additional 5,000 vehicles per day. This would also cut travel time from Laguna from 2 hours to under an hour.

"CALAX is included in the Luzon Spine Expressway Network -- a master plan aimed at increasing the high standard highway network by three-fold. We are now closer to our dream of connecting the northernmost part of Luzon to its southernmost portion. We are confident that we will be able to deliver majority of this high-impact project within the term of President Rodrigo Duterte," said DPWH Secretary Mark A. Villar.

Based on the last development of the right of way acquisition, the whole stretch of CALAX would be operational by early 2023 according to Bontia. (PIA)

COCA-COLA ... FROM PAGE 1

The collaboration between Japanese fashion brand Miniso with Coca-Cola brings a double dose of happiness, giving a new vitality to shopping with the fusion of young and classic brands.

Miniso is positioned as a lifestyle product retailer that young people want to visit, and the brand tone of Coca-Cola is happy and simple. Significantly, both have red and white logos: Coca-Cola with its "Spencerian" script that has captured the heart of generations of consumers; while Miniso's red and graphic logo that advocates "Life is for fun" and aims to deliver well-made and highly-designed goods at a reasonable price for shoppers to better enjoy a quality of life on a budget.

With this, the Miniso X Coca Cola Collection comes in classic red and white, with designs that are vintage, fashionable, and creative yet functional items. These include mugs and tumblers, tote bags, keychain with bottle opener, cosmetic pouch, lunch bags and other novelty pieces.

Conveniently shop for your favorite Miniso X Coca Cola items in-store or online via shop.minisoph.com. For more updates, follow Miniso-Philippines in Facebook and Miniso PH in Instagram.

Election ... FROM PAGE 1

CAVITE CITY: The political atmosphere in the province Cavite is beginning to heat up one month before the filing of certificates of candidacy on October 1 to 8.

Several would-be candidates make notice of their intention to run for office by publicly posting campaign materials, which can be viewed by passing motorists and people on the street.

Liga ng mga Barangays Federation President Apple Paredes, daughter of incumbent Mayor Bernardo Paredes, and incumbent Vice Mayor Denver Chua are expected to clash for the top executive post of Cavite City.

Dino Chua, meanwhile, is seeking his third and final term as mayor of Noveleta. He is expected to be challenged by former mayor Boy Alvarez.

Chua's brother, First District Board Member Davey Chua, is eyeing for the Congressional seat of the first Legislative District of Cavite. Incumbent Rep. Boy Blue Aguinaldo Abaya has already completed his three terms in congress and said he would want his brother Dr. Paul Aguinaldo Abaya, former vice mayor of Kawit, to inherit his position.

Boy Blue Abaya will instead run against his second degree cousin, incumbent Kawit Mayor Angelo Emilio Aguinaldo, who is seeking reelection in the cradle of Philippine Independence.

In Rosario, Cavite, incumbent Mayor Voltaire Ricafrente, who is also seeking reelection, will be challenged by Vice Mayor Mao Luna.

Last May 27, Mayor Aguinaldo of Kawit, Mayor Chua of Noveleta, Mayor Ricafrente of Rosario and Vice Mayor Chua took oath as new members of the Lakas CMD party.

Their rivals are rumored to be joining the Partido Magdalo of incumbent Gov. Juanito Victor "Jonvic" Remulla Jr., who has openly announced that he will run again as governor of the province despite rumors that he is seeking a national post. Political parties are slated to announce their respective lineups in September. (TMT)

VEGAN HAIR CARE FROM THE BODY SHOP

The Body Shop's new vegan routines - the Tea Tree and Moringa Haircare range.

The Body Shop's new haircare bottles and tubs are made from 100% recycled plastic, including Community Fair Trade recycled plastic collected off the streets of Bengaluru, India. **Not including lids

The Body Shop's new vegan Tea Tree haircare line purifies and balances oily hair and scalp made with organically-grown Community Fair Trade tea tree oil from Kenya and Vegan Silk Protein. Bottles and tubs are made from 100% recycled plastic.

Brighten up your barnet with The Body Shop's new vegan Moringa Haircare routine that restores dull hair's radiance and shine, and protects hair from daily pollution. Made with Community Fair Trade moringa seed oil and extract from Rwanda and Vegan Silk Protein. Bottles and tubs are made from 100% recycled plastic.

Hair has an attitude, an identity. It tells a powerful story about who you are. Which is why it's so important to keep it in root-to-tip shape. Luckily The Body Shop's new vegan haircare routines are here to help your hair look and feel as powerful as you, so you can keep telling your story, your way.

At a time when environmentally conscious and friendly body, face, and hair products are on the rise, vegan products provide a natural source of nourishment made from plants and minerals coupled with safe and tested ingredients. They contain no harmful chem-

icals, and if you have sensitive skin they're just perfect for you. And sustainable for you and the environment.

What makes The Body Shop's new haircare routines so powerful is that they're all made with Vegan Silk Protein, a 100% plant-based protein, which cleverly replicates the chemical structure of natural silk produced by the common European garden spider. But The Body Shop's is fully plant-based – and ALL The Body Shop's haircare is now registered by the Vegan Society, so, no spiders or silkworms were harmed, used or disturbed to obtain it. Plus, all haircare is now made

with (at least!) 90% ingredients of natural origin.

The Body Shop's new haircare routines - Tea Tree and Moringa - are designed to improve the appearance of damaged hair, so they literally help repair the hair follicle from the inside out.

Get fresh and clean locks for longer with the new Tea Tree haircare routine - Tea Tree Purifying and Balancing Shampoo, Conditioner and Hair & Scalp Scrub - that purifies and balances oily hair and scalps. Made with organically-grown Community Fair Trade tea tree oil from Kenya and Vegan Silk Protein – this routine also helps eliminate build-up, leaving hair feeling purified and refreshed without stripping its natural moisture.

The new Moringa Haircare, on the other hand, brightens up your barnet. Get healthier-feeling, shinier hair and help protect it from daily pollution. Made with Community Fair Trade moringa seed oil and extract from Rwanda and Vegan Silk Protein. This routine, which includes the Moringa Shine and Protection Shampoo, Conditioner and Hair Mist, visibly restores dull hair's radiance and shine. Expect softer, smoother and healthier looking hair that smells fragrant-ly floral.

The Body Shop's new haircare bottles and tubs are made from 100% recycled plastic, including Community Fair Trade recycled plastic collected off the streets of Bengaluru, India.

Give your hair these vegan haircare treats and power your do like never before with The Body Shop's new Tea Tree and Moringa Haircare Routines. Visit their online store 24/7, add to cart, and check out anytime of the day at www.thebodyshop.com. The Body Shop's cruelty-free and vegan products are also available in The Body Shop stores, Call & Deliver, Lazada, Shopee and ShopSM. The Body Shop now accepts SM Advantage Card for points earning and redemption, SM and Sodexo premium pass in all The Body Shop stores nationwide.

About The Body Shop

The Body Shop was founded in 1976 by Dame Anita Roddick in Little Hampton, England. The beauty brand pioneered corporate activism and was built on a philosophy that business can be a force for good. With its brand expression, Beauty with Heart, the company continues to be focused on five core values: Against Animal Testing, Support Community Fair Trade, Activate Self Esteem, Defend Human Rights and Protect The Planet.

All products are created using the finest ingredients sourced from the four corners of the globe, which are not tested on animals and are 100% vegetarian. The Body Shop has been in the Philippine market for twenty-five years with over 60 strategically located stores nationwide.

NCR LGUs open vax program to Calabarzon, nearby provinces

With around 90 percent of its priority residents already vaccinated against COVID-19, Metro Manila chief executives are opening their vaccination programs in their cities to residents in surrounding areas, including the provinces of Cavite, Laguna and

Rizal.

This was after the National Task Force Against COVID-19 led Monday's symbolic vaccination to mark the country's 30-million mark in total jabs administered last August 23, at SM San Mateo.

As part of their support to the National Vaccination Program, SM Supermalls said they launched their Vax 'N' Dine campaign to encourage their customers to get vaccinated in their mall-based vaccination hubs.

Metro Manila Development Authority Chair, Benjamin Abalos said around 11, 613,157

residents belonging to priority groups have already been inoculated against the disease.

Abalos said around 70 percent of COVID-19 patients are unvaccinated, while 30 percent have already received up to two doses of vaccines.

"Karamihan ng mga namamatay [sa COVID-19] ay mga unvaccinated at pagdating sa mga critical and severe cases ay hindi nagkakatayo. Karamihan ng asymptomatic patients ay fully vaccinated," Abalos said of how the national vaccination program affects

SM Marketmall management in Dasmariñas City makes sure that customers will always feel safe at the mall. Disinfection is done regularly to common areas around the mall by the safety protocol officers. Visit SM Marketmall for your essential needs and have a safe and enjoyable shopping!

Dasma ...

The city government of Dasmariñas recently implemented the new CoViD-19 vaccination (CoVax) process to ensure the validity and orderly process of setting up vaccination schedules.

According to Joanne Mata, Executive Assistant V, Office of the Mayor, reconstruction of the procedures was due to the confusion that resulted from text messages for confirmation of vaccination schedules using different legit numbers from the Office of the Mayor.

There were also reports of vaccinees who were not city residents, nor working or studying in the city.

The new CoVax process requires the registration and follow-up will be done directly with the barangay, thru the barangay secretaries who will be responsible for the submission of the lists to the Office of the Mayor.

The Office of the Mayor in collaboration with the City Tourism Office will then arrange the schedules in the city vaccination sites of those in the registration lists, and check for double entries as well.

The arranged schedule will be forwarded to the Dasmariñas City Information Technology Office for text blasting to concerned residents.

Meanwhile, those who had previously registered online just need to print the form from the dasmacito website which will be submitted to the Barangay to be included in the lists.

◀ FROM PAGE 1

Non-residents who are employed and working in the city, as well as students of universities and colleges in the city may register at the Office of the Mayor.

City Tourism Officer Red Alano said that risks will always be present in any situation in the midst of the CoViD-19 pandemic in answer to the criticisms regarding the new process being not safe to the residents.

"We don't really know when and where it is safe," Alano said.

He clarified that senior citizens who are vulnerable will always be prioritized, and will be given consideration once in the vaccination site even without prior schedule.

The city's vaccination program continuously conduct vaccination of the members of the A1 – A4 priority groups and will soon start with the A5 category. (PIA)

NCR ...

◀ FROM PAGE 5

the COVID-19 situation in the National Capital Region.

[Most COVID-19 related deaths are unvaccinated, while those who are in critical and severe cases are not much different. Meanwhile, most of the asymptomatic patients are fully vaccinated.]

Considering that some of the country's major cities are found in the NCR, Abalos said smaller cities--such as San Juan, Pateros and Mandaluyong-- tend to complete their vaccination programs faster than their larger and more populous neighbors. (PB)

Eliza Sanchez, 99 years old, was the oldest vaccinee at Resbakuna SM City Rosario. She was very confident that COVID Vaccine will help her protected against the virus and that it will also protect her family from this disease. LGU in partnership with SM City Rosario, encourage all Rosario Cavite Residents to get vaccinated to help stop the spread of COVID-19.

DREAM DESKS FROM OUR HOME

Our Home's Farkins Office / Study Desk has one side for writing and paper work, and another side for storage and décor.

After more than a year of working from home, it's time to indulge yourself by creating a working space that's both decorative and functional. And most likely, the desk will be the centerpiece of one's home office in terms of design and activity.

The good news is that whether you're working from home, having an online class, starting a new business or hobby, or simply browsing the net, Our Home has stylish selections that combine comfort, functionality and designs that you'll love. And it offers some tips when choosing your dream desk.

Choose a desk that's right for your needs and that suits your space and style. Consid-

er your workflow and activities to make sure that you can use your desk comfortably and productively.

Also, consider your overall house design in choosing your desk. If your place is more traditional, the classic Hambu Writing Desk would be a perfect fit; while the white Havana Computer Desk will compliment contemporary spaces.

Size (and Shape) Does Matter. Making the mistake of buying a desk that's either too big for your space or too small for the way you work will not be good for your productivity and comfort.

You'll also discover that apart from size, your desk shape does matter in helping you getting organized. Rectangular desks, like Our Home's Gavin's Office Desk, are the most popular choice, and these are available in a variety of width and depth sizes. Corner desks for awkward spaces, and wave desks that provide you with the benefits of a rectangular desk while also giving you a larger desk top, are also great alternatives.

Consider Storage. Without any storage, your home desk can become cluttered and disorganized. Opting for a chest with drawers is an ideal way to keep your workspace organized and to make sure that all your essentials are at your fingertips. Better still, opt for a desk and

storage combination.

Sitting Well. Sitting comfortably at your desk is necessary for making sure that you can be as productive as possible as you work. It will also ensure your back is continuously supported. Our Home has ergonomic chairs for a healthy WHF, as well as desk lamps to make sure your area is properly lighted.

Visit Our Home stores nationwide at select SM Supermalls for more Desk and Home Office ideas. Customers who prefer to shop online can expect the same great shopping experience through www.ourhome.ph. In addition, Our Home has introduced Contactless Shopping Options for customers who prefer to stay in their homes. Customers can Call & Deliver – call 0917 8315260, pay online, and have their items delivered. They can Shop Live where a personal shopper takes them on a virtual tour of the store via video call. Curbside Pickup is also available.

**Shop in-store, online, or contactless with our Call & Deliver (0917)8315260, Shop Live, and Curbside Pickup services. Free interior design advice and affordable bespoke services are available.

**Only at Our Home. Great Designs. Great Prices.

COMELEC VOTER REGISTRATION AT SM SUPERMALLS

The Commission on Elections and SM Supermalls recently launched 76 satellite COMELEC Voter Registration centers at the SM Supermalls to provide voters with more registration venues. This will run in SM Supermalls nationwide until Sept 30. This gives the public a safer, more convenient option amidst the prevailing COVID health crisis. Shown during the launch at the SM Mall of Asia are COMELEC Commissioner Aimee Ferolino (center) joined by (from left to right)

COMELEC Director IV for Election and Barangay Affairs Department Atty. Divine E. Blas-Perez, COMELEC Director IV for Education and Information James Jimenez, SM Supermalls President Steven Tan and SM Supermalls SVP for Operations Bien Mateo. SM Supermalls is providing free space and waived charges to essential conveniences so they can efficiently operate the registration centers.

Diaz receives Olympic incentives in Tagaytay

Following her successful campaign at the Tokyo Olympics, weightlifter Hidilyn Diaz is expected to move into her new home in Barangay Kaybagal Central, Tagaytay City.

Aside from a brand new 13-seater Foton Transvan, gold medalist Diaz also received a 220 square meter house and lot as part of her incentives from the Philippine Olympic Committee.

With an estimated worth of P5-M, the two-storey property includes three bedrooms and an estimated 180 square meter total floor area.

“Sobrang thankful ako sa unexpected blessings na ibinigay sa amin. As an athlete, goal talaga namin manalo ng gold para sa Pilipinas,” said Diaz, who bagged the country’s first Olympic Gold after dominating the 55-kg women’s division.

[I am very thankful for the unexpected blessings given to us. As an athlete, our goal is to win for the Philippines.]

Diaz’s triumph at the Olympics is predicted to attract more interest in weightlifting as a sport, which prompted talks of its inclusion in the Department of Education-led Palarong Pambansa.

“Syempre sobrang saya,” Diaz said of this development. “But we have to think long term [kung] paano i-program ito dahil hindi

pwede isasama pero walang programa. We have to think long term upang ma-sustain at maipasok ang weightlifting sa Palarong Pambansa,”

[Of course, I’m very happy. But we have to think long term because we cannot include it [in Palarong Pambansa] without a program. We have to think long term in order to sustain and include weightlifting in the Palarong Pambansa.] The weightlifting champion’s new Tagaytay home is just one of the few properties given by the Philippine Olympic Committee.

Soon, Diaz will be neighbors with other Filipino Olympians--boxers Nesthy Petecio, Eumir Marcial, and Carlo Paalam--who witnessed the groundbreaking for the construction of their own homes in nearby Barangay San Jose.

For the community, the possibility of having world class athletes for neighbors is a welcome sight after witnessing the turn over ceremony for the weightlifting champion’s new home.

“We are very honored [to have her] dahil mayroon na akong kapitbahay na first time gold medalist para sa Pilipinas,” said resident Roger Camacho.

[We are very honored to have her because I now have a neighbor who is a gold medalist.] (PB)

CARD-BDSFI boosts social media presence to encourage organic farming

CARD-Business Development Service Foundation Inc. (CARD-BDSFI), a member of CARD Mutually Reinforcing Institutions, launches a series of activities on their “CARD-BDSFI Organic Demo Farm” Facebook page in its aim to promote simple organic farming at home.

Through its social media page, CARD-BDSFI seeks to encourage the online community to try backyard farming. As the pandemic has made traveling to markets more challenging, CARD-BDSFI sees backyard farming as a way of sustainable food production. It also sees the practice as an opportunity for budding farmers to start their agricultural produce business.

“We hope that through these series of online activities, we can encourage our clients and followers to try simple organic farming. Besides serving as a stress reliever in this pandemic, this also might be their gateway to opening a new source of income, something that is hard to come by these days. This is our way of help-

ing our fellowmen, in line with CARD MRI’s goal of poverty eradication,” said CARD-BDSFI’s President Frederick Nicasio M. Torres as they hope to turn a simple hobby into a livelihood opportunity. Organic Demo Farm

In the coming months, CARD-BDSFI will produce more online content on organic farming. The institution aims to support and inspire its social media followers and CARD MRI clients in engaging in backyard farming by providing them series of online live trainings, videos, and activities. Each month will have a dedicated topic and

theme with which the activities will revolve around. Organic pesticides, fertilizers, and mushroom growers are some of the topics to name a few.

In collaboration with CARD MRI Hijos Tours, CARD-BDSFI will provide interactive online tours, trainings, and seminars to provide in-depth discussion with the participants. Training videos will also be posted on the Organic Demo Farm Facebook Page every month starting July 2021.

To increase the engagement of the page and attract new followers, CARD-BDSFI also conducts online contests for

the public. This is in line with its goal of having a wider reach in the online space.

“We are looking forward to an increase in traffic of our FB page. This will serve as our metric as to how we could improve our content and provide the quality information our followers need to turn their simple farming into a business venture,” Torres concluded.

For more information about the online trainings and contest of CARD-BDSFI, follow the official Facebook Page of the Organic Demo Farm @carbdsfidemofarm. (PR)
